

2025-10-25 Meeting Agenda

Date

25 Oct 2025

Participants

- RAIL PG-2 project team
 - o Tao Xu a1937511
 - o Jinchao Yuan a1936476
 - o Zilun Ma a1915860
 - o Di Zhu a1919727
 - o Xin Wei a1912958
 - o Yifan Gu a1909803
 - o Tianhua Zhang a1915934
 - o Zihan Luo a1916700
 - o Sheng Wang a1903948

Goals

- Share team progress of Sprint 5
- Final report
- Final presentation
- Final process presentation

Discussion topics

1. Share team progress of Sprint 5

Everyone shared some of their achievements, including the latest scores after model optimization and the methods used. It includes the important features corresponding to each model and thresholds of these features that correspond to a higher likelihood of rail failure. These achievements and model combinations have been shared in the corresponding github task commit.

2. Details about final report

Although the final report is personal, there are some parts about the team in it. We discussed and determined the content of this part.

3. Discuss the content of the final presentation and final process presentation

At the end, we discussed the slide contents of these two reports one by one and divided the work. Each person clearly knew their task and prepared the content and recorded the video in the following time.
