

# 2025-10-18 Meeting Agenda

## Date

18 Oct 2025

## Participants

- RAIL PG-2 project team
  - Tao Xu a1937511
  - Jinchao Yuan a1936476
  - Zilun Ma a1915860
  - Di Zhu a1919727
  - Xin Wei a1912958
  - Yifan Gu a1909803
  - Tianhua Zhang a1915934
  - Zihan Luo a1916700
  - Sheng Wang a1903948

## Discussion topics

### 1. Share progress at the end of Sprint 4

- This week, team members have chosen their combination of model and XAI technique. In the meeting, each member reported the analysis results regarding the importance of the features on model training and prediction with visualized plots.

### 2. Discuss problems that were faced at the end of Sprint 4

- Tianhua Zhang faces some issues when applying DICE on the DNN model, and the other members proposed some advice.
- Some conflicts appeared when merging the branch “SP4/XAI\_IMPLEMENTATION” into the main branch.

### 3. Propose feasible solutions for problems

- Team members will collaborate to solve the conflicts after the meeting.

### 4. Discuss the snapshot 4.2

- Check the content of snapshot 4.2.
- Complete the part of the summary changes

### 5. Next steps for the next

- Confirm the detailed information about the final report and presentation.
